Please note: In the event that buyer purchases a Weathertightness Warranty, all Manufacturer's procedures must be followed for issuance of the warranty and BUYER must have paid in full all invoices for material and the warranty before it will be issued. All Single Source warranties require a signed "Single Source Warranty, Customer "Acknowledgment" form prior to shipment of materials. Please submit this form along with roof geometry and final construction details to [Warranties@cornerstone-bb.com](mailto:Warranties@cornerstone-bb.com).

Notice: If the customer is submitting his own Bill of Materials, the customer must return an approved copy of this form with the material order. Failure to do so could result in the Weathertightness Warranty not being issued.
